Exploring Cutting-Edge Technologies
Chattogram, Chattogram, Bangladesh

Summary

Personal EngagementI enjoy building real-world software and experimenting with different technologies and tech stacks. Actively participate in machine learning competitions on Kaggle and continuously learn by doing. # Technical Expertise Programming Languages: JavaScript, Python, C Frameworks & Libraries: React, Node.js, Express.js Databases: MongoDB, MySQL Tools & Technologies: Git, GitHub, Figma Familiar with Kali Linux and currently exploring cybersecurity concepts and practices. Experience building machine learning models using Python, PyTorch, and scikit-learn. Applied Deep Learning and Computer Vision techniques (EfficientNet-B0). Worked with audio processing using Librosa and Mel Spectrograms. Strong foundation in data analysis using Pandas and NumPy. Career AchievementsParticipated in Kaggle competitions including BirdCLEF+ 2026 and Orbit Wars. Created multiple real-world projects including web apps and software solutions using modern tech stacks. Passion & GoalsPassionate about Artificial Intelligence and Cybersecurity. Aspiring to pursue a Master's degree through the Erasmus Mundus Scholarship in AI or Cybersecurity. Interested in writing and publishing research papers. Open to Research Collaboration and Tech Roles.
